La possibilità di giocare con la stuccatura è fondamentale: nelle tinte unite, la scelta di una fuga tonale o a contrasto gioca un ruolo chiave, permettendo di neutralizzare o enfatizzare il layout con il colore, creando così combinazioni uniche e originali. Questo approccio flessibile rende possibile realizzare decorazioni in grado di rispondere perfettamente a ogni esigenza, trasformando l'ispirazione in design concreto.

The ability to play with grout is key: in solid colors, the choice of a tonal or contrasting joint plays a key role, allowing the layout to be neutralized or emphasized with color, thus creating unique and original combinations. This flexible approach makes it possible to create decorations that respond perfectly to every need, turning inspiration into concrete design.

La possibilité de jouer avec les joints est essentielle : dans les couleurs unies, le choix d'un joint ton sur ton ou contrasté joue un rôle clé, permettant de neutraliser le tracé ou de le souligner par la couleur, créant ainsi des combinaisons uniques et originales. Cette approche flexible permet de créer des décorations qui répondent parfaitement à chaque besoin, transformant l'inspiration en design concret.

Die Möglichkeit, mit Fugen zu spielen, ist der Schlüssel: Bei Unifarben spielt die Wahl einer tonalen oder kontrastierenden Fuge eine wichtige Rolle, die es erlaubt, das Layout zu neutralisieren oder mit Farbe zu betonen und so einzigartige und originelle Kombinationen zu schaffen. Dieser flexible Ansatz ermöglicht es, Dekorationen zu kreieren, die perfekt auf jedes Bedürfnis eingehen und Inspiration in konkretes Design verwandeln.
