PROJECT

Steel'e

Una collezione di rubinetteria in **acciaio inox AISI 316L** progettata per garantire **elevate prestazioni, affidabilità nel tempo ed estetica essenziale**, in linea con le esigenze dell'architettura e dell'interior design moderno.

L'utilizzo dell'**acciaio inox AISI 316L** offre numerosi **vantaggi**, tra cui:

- **elevata resistenza alla corrosione**, anche in ambienti aggressivi, salini e chimici;
- **alto livello di igiene**, grazie alla superficie liscia e non porosa, facilmente sanificabile;
- materiale **ecologico e riciclabile** al 100%.

*A collection of faucets in **AISI 316L stainless steel**, designed to ensure **high performance, long-term reliability, and an essential aesthetic**, in line with the needs of modern architecture and interior design.*

*The use of **AISI 316L stainless steel** offers numerous **advantages**, including:*

- **high corrosion resistance**, even in aggressive, saline, and chemical environments;
- **a high level of hygiene**, thanks to the smooth, non-porous surface, which is easy to sanitize;
- an **eco-friendly material** that is **100% recyclable**.

Une collection de robinetterie en **acier inoxydable AISI 316L**, conçue pour garantir des **performances élevées**, une **fiabilité durable** et une **esthétique essentielle**, en accord avec les exigences de l'architecture et du design d'intérieur modernes.

L'utilisation de l'**acier inoxydable AISI 316L** offre de nombreux **avantages**, parmi lesquels :

- une **résistance élevée à la corrosion**, même dans des environnements agressifs, salins et chimiques;
- un **haut niveau d'hygiène**, grâce à une surface lisse et non poreuse, facile à désinfecter;
- un **matériau écologique et recyclable** à 100 %.

PROJECT

Roman

design Odo Fioravanti

Un ampliamento della famiglia Groove, Roman è un modello di soffione da incasso dalle linee pulite e geometriche, totalmente ispezionabile.

L'ispezionabilità del soffione, per ogni necessità di manutenzione, è garantita dalla sua facile estraibilità: l'oggetto è semplicemente appoggiato sul controsoffitto.

Roman è disponibile in **due versioni**:

- 1) nella versione in **Eulithe***: un polimero poliuretano rigido verniciabile in qualsiasi tinta, che permette all'oggetto di essere in relazione cromatica con l'architettura che lo accoglie.
- 2) in **marmo** e **travertino**: pietre eleganti e sempre diverse per texture, grazie alle venature naturali.

An addition to the Groove series, Roman is a concealed shower head with clean, geometric lines, totally inspectable. Inspectability is assured by an ease of removability to meet every maintenance necessity: the shower head is simply housed in the false ceiling.

*Roman is available in **two versions**:*

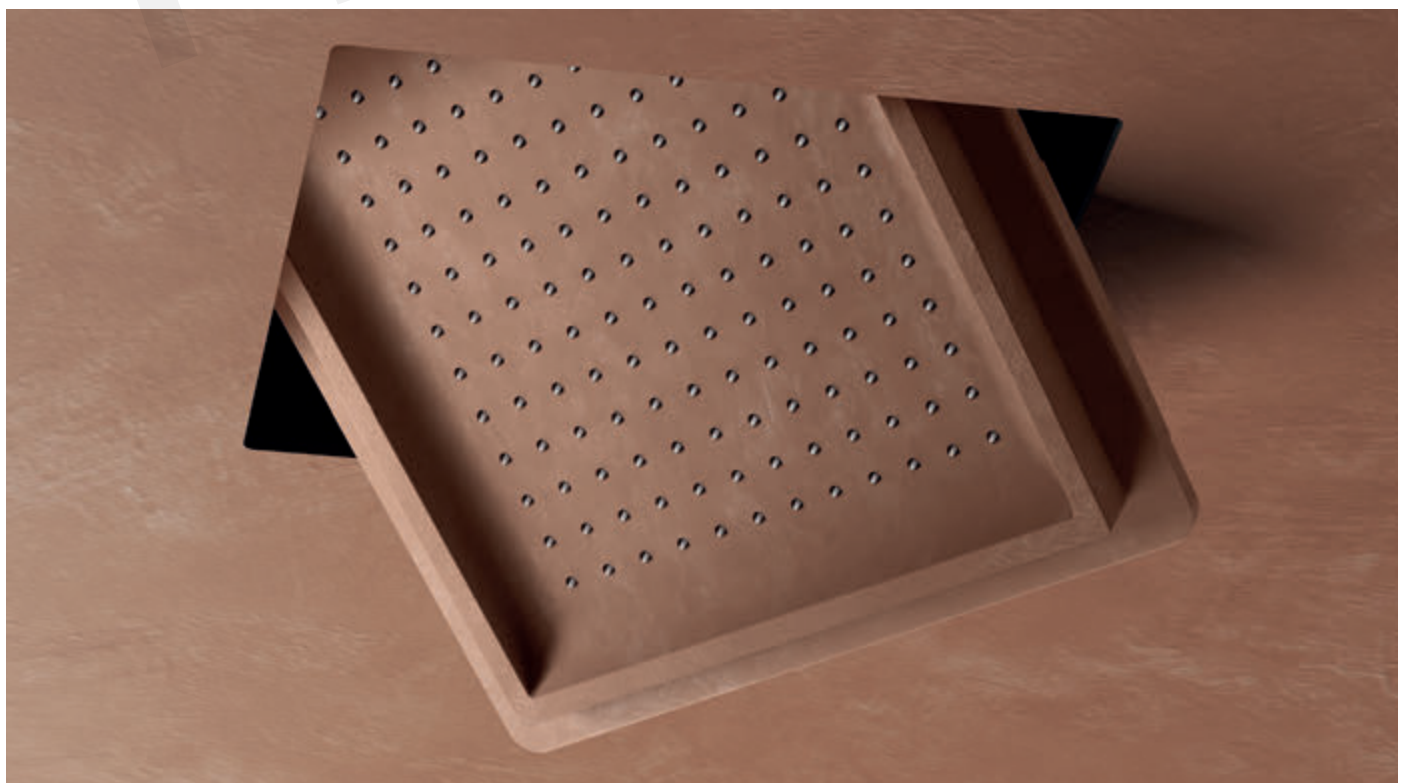

- 1) in **Eulithe***: a rigid polyurethane polymer that can be painted in any colour, allowing the object to match the colours of the architecture in which it is installed.*
- 2) in **marble** and **travertine**: elegant natural stones, each unique in texture thanks to their natural veining.*

Un élargissement de la famille Groove, Roman est un modèle de pomme de douche encastrée aux lignes épurées et géométriques, entièrement accessible pour inspection.

L'accessibilité du pommeau de douche, pour toute nécessité d'entretien, est garantie par sa facilité d'extraction : l'objet est simplement posé sur le faux plafond.

Roman est disponible en **deux versions**:

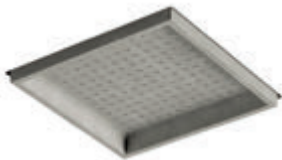

- 1) en version **Eulithe*** : un polymère polyuréthane rigide pouvant être peint dans n'importe quelle teinte, permettant à l'objet d'être en relation chromatique avec l'architecture qui l'accueille.
- 2) en **marbre** et **travertin**: des pierres élégantes et toujours différentes par leur texture, grâce à leurs veinures naturelles.
