

Zerobody Dry Float

Zerobody Dry Float is an **innovative and patented system** to regenerate body and mind. Developed on the basis of the broad scientific research on the benefits of floatation in water, Zerobody Dry Float is an effective and versatile solution for **Dry Float Therapy**: the body floats over 400 litres of warm water, without the need to get undressed or wet.

The Dry Float Therapy takes advantage of the benefits of floatation to allow body and mind to regain energy in an easy and versatile way that suits everyone. Zerobody Dry Float, **a one-of-a-kind system offering the benefits of reduced gravity**, is a technological innovation in the service of regenerative well-being that produces a positive impact on: **stress, muscle and joint pain, sleep, focus, psycho-physical recovery**.

Design: Cristiano Mino

Zerobody Cryo

Zerobody Cryo is Starpool's revolution for the world of **Cold Therapy**: innovative in its simplicity, safety and accessibility, it features a patented water membrane that wraps the body entirely without the need to get wet, at a functioning temperature of 4-6°C in a safe and non-invasive environment.

The access makes **the approach to the Cold Therapy easier**, resulting in the same benefits as the traditional cryotherapy or the immersion into icy water. Zerobody Cryo ensures a **gradual exposure** to the cold, offering users the complete comfort of dry floatation.

Zerobody Cryo features a practical and easily accessible **safety button**. It can be used at any time to stop the cryotherapy session autonomously.

Design: Cristiano Mino

Nuvola

Nuvola is an **innovative and patented system** to regenerate body and mind, giving a new meaning to the concepts of beauty and well-being. Developed from extensive scientific research about the benefits of floatation in water, Nuvola revolutionises the Beauty sector with **the exclusive Dry Float Therapy**: the body floats on 400 litres of warm water, without the need to get undressed or wet.

Zerobody Dry Float Pro

Zerobody Dry Float pro brings the regenerating effect of the Dry Float Therapy in the contexts where people's psycho-physical well-being and health are crucial. From professional **sport** to the **corporate** world, from **physical therapy** to the **hotels** that want to meet the needs of guests who are increasingly attentive to healthy lifestyles.

With **Zerobody Dry Float pro**, you'll bring the regenerating power of the Dry Float Therapy into your business through an innovative system of use validated by scientific research and suitable to everyone, without any contraindication. Being so easy to use, Zerobody Dry Float blends seamlessly in your reality; moreover, our experts will be delighted to help you define the **best protocols of use** so that the Dry Float Therapy meets your requirements effectively.

Employed by the great **international sport clubs** to favour their athletes' recovery and ensure top performance at all times, Zerobody Dry Float pro can also be used in **hotels** as an innovative solution for guests who are always more attentive to health and psycho-physical well-being. As a fast and effective tool for **Corporate Wellness** inside companies, it is also a valuable help for physical therapists and **health professionals**, who benefit from it every day to enhance the effectiveness of their manual therapies.

Easy and always ready to use. Once installed, connected to the power supply and the desired water temperature reached, Zerobody Dry Float pro is always ready to be used and **does not require special personnel**.

It is possible to customise the Dry Float Therapy session through a **touch-screen display** and intuitive software. You can select:

- duration;
- coloured lights (extra);
- lumbar massage (extra);
- audio-guide Brain Training programs;
- language.

Brain Training programs. The Zerobody Dry Float pro software includes our **Brain Training programs**, developed in collaboration with renowned partners in the fields of sport and science. You will be able to combine the regenerating power of the Dry Float Therapy to the benefits of mental training to favour cognitive enhancement and psycho-physical well-being. It includes:

- 5 audio-guide **Mindfulness** Programs;
- 5 guided **Breathing** Techniques;
- 5 relaxing **music** Tracks.

STARPOOL

Zerobody Cryo Pro

Cold Therapy benefits. Zerobody Cryo cools off the skin, stimulating the immune and metabolic system. This causes a general state of well-being and specific physical and mental benefits:

- easing of muscle and joint pain;
- reduced levels of stress;
- immune system strengthening;
- promotion of fast and effective muscle recovery;
- skin rejuvenation.

Zerobody Cryo PRO represents the perfect choice for organisations wishing to introduce cold therapy as part of treatments delivered by qualified operators.

Designed for hotels, sports centres, clinics and physiotherapy practices, it guarantees an effective experience that can be easily integrated into wellness, performance and physical recovery programs.

Simple and safe. When Zerobody Cryo PRO is installed and connected to the power supply, the provided cooling system brings the water functioning temperature down to 4-6 °C. Once it has reached the appropriate temperature, it is ready to be used. Zerobody Cryo is characterised by low energy consumption, which makes it highly effective in terms of sustainability.

Wraparound membrane with compression effect. Zerobody Cryo PRO is equipped with a special membrane featuring two wraparound flaps that fully envelop the body, promoting consistent cooling. Meanwhile, as it fills with water, the membrane exerts a gentle compression, thus enhancing the recovery process.

Touch-screen display for customised treatments. The keypad integrated into the product's head section allows the operator to easily adjust the session duration, tailoring each treatment to the user's specific needs.

Thermal cover mat. Thanks to the thermal cover mat, Zerobody Cryo PRO is protected by an insulating barrier that significantly reduces condensation formation. The cover, perfectly designed to fit the product, limits contact between the cold water inside the tank and the warmer external environment, thereby reducing thermal dissipation. As a result, even with significant temperature differences, condensation on the membrane is greatly minimized, improving overall comfort during the treatment.

Zerobody Cryo Personal

Cold Therapy benefits. Zerobody Cryo cools off the skin, stimulating the immune and metabolic system. This causes a general state of well-being and specific physical and mental benefits:

- easing of muscle and joint pain;
- reduced levels of stress;
- immune system strengthening;
- promotion of fast and effective muscle recovery;
- skin rejuvenation.

Zerobody Cryo PERSONAL delivers the benefits of cold therapy in a solution designed for **simple self-use**. Ideal for settings with no dedicated staff, it provides an effective and accessible experience while maintaining high standards of comfort and safety.

Simple and safe. When Zerobody Cryo PERSONAL is installed and connected to the power supply, the provided cooling system brings the water functioning temperature down to 4-6 °C. Once it has reached the appropriate temperature, it is ready to be used. Zerobody Cryo is characterised by **low energy consumption**, which makes it highly effective in terms of sustainability.

Self-use wraparound membrane. Zerobody Cryo PERSONAL is designed with a special **single-flap** wraparound membrane that ensures evenly distributed cooling of the body, whilst offering simple, self-use. It is also particularly suited to localised treatments, such as those for the lower body.

Self-use touch-screen display. The touch-screen display integrated into the side of the device enables the user to easily and autonomously manage the duration of the session, offering the possibility to interrupt it at any time, if necessary.

Thermal cover mat. Thanks to the thermal cover mat, Zerobody Cryo PERSONAL is protected by an insulating barrier that significantly reduces condensation formation. The cover, perfectly designed to fit the product, limits contact between the cold water inside the tank and the warmer external environment, thereby reducing thermal dissipation. As a result, even with significant temperature differences, condensation on the membrane is greatly minimized, improving overall comfort during the treatment.

Nuvola

Nuvola is an innovative and patented system to regenerate body and mind, giving a new meaning to the concepts of beauty and well-being. Developed from extensive scientific research about the benefits of floatation in water, Nuvola revolutionises the Beauty sector with the **exclusive Dry Float Therapy**: the body floats on 400 litres of warm water, without the need to get undressed or wet.

The new frontier of beauty. The new trends of the world of Beauty lead us to a new kind of self-care that goes beyond the aesthetic result. Nuvola's action starts from within, and takes advantage of the therapeutic power of **dry floatation** to maximise the result of traditional beauty treatments. In addition, Nuvola is effective also for mental wellness: thanks to a focused action on stress levels and quality of sleep, it is the ideal ally to the facilities that want to keep up with the times.

Beauty, even in style. Nuvola is not just a piece of equipment for treatments, but a real design item that adds value to the place in which it is installed. It is the evolution of the concept of cabin or suite, and can blend in perfectly in any beauty centre or spa. Equipped with coloured lights and localised massage systems on the cervical, lumbar and plantar areas, Nuvola is a solution that features numerous extras to **transform body treatments in authentic all-round wellness experiences**.

100% safe and easy to sanitise after each use, Nuvola requires little maintenance and has reduced energy consumption, thus meeting the needs of a sector that is increasingly more conscious about sustainability.
