## **REFERENCES**

We design  
*showers* and *wellness*  
areas for your  
accommodation facility

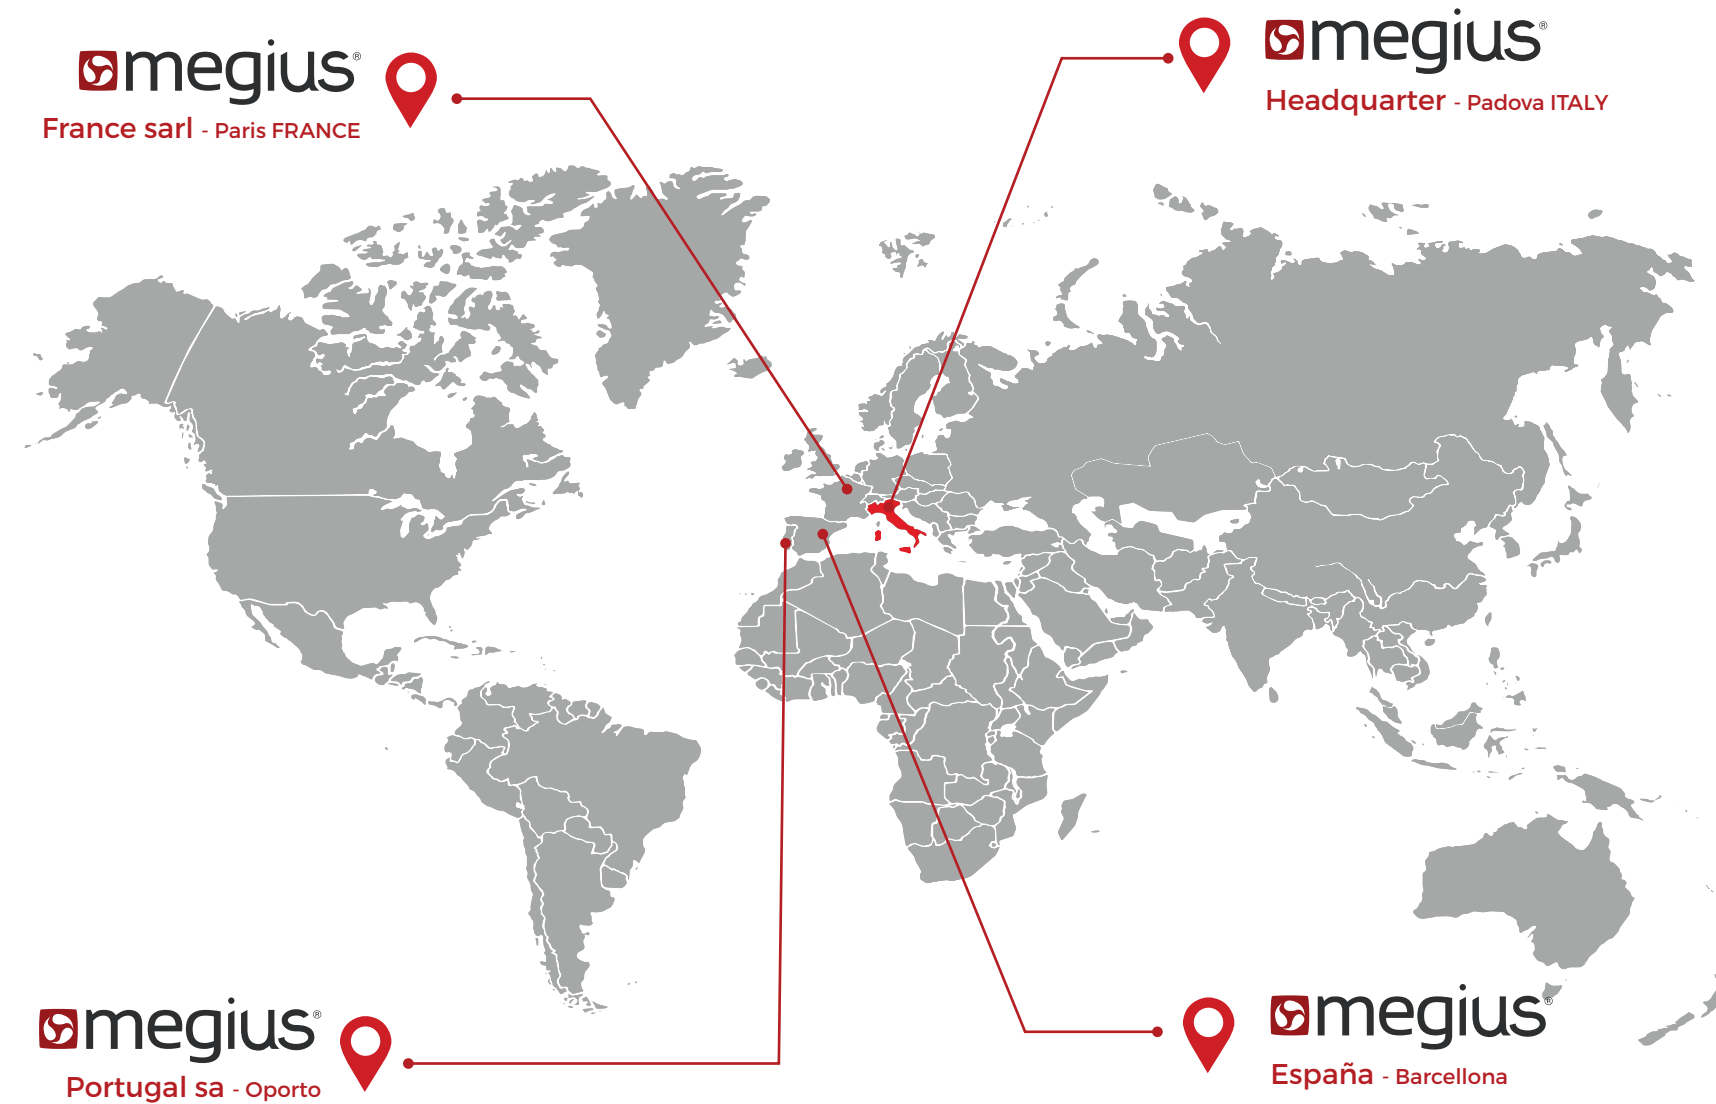

Dedicated Solutions studied to fit any type of space and environment to be developed. Treat well your guests with personalized solutions, give them an unforgettable shower experience in the privacy of their room.

Make more attractive your hotel by creating a mini SPA. Trasform every single space into a concrete opportunity: give your customers a Wellness lifestyle doing sauna, turkish bath and hammam.

# Made in Megius

For more than forty years, Megius has been producing and promoting shower solutions that are unique in design accessible economically to anyone, destined to represent, in Italy and in the world, Italian high school bathroom furnishings, anticipating and interpreting the changes and habits of modern society. In more recent times it is also synonymous with a wellness product, as the feeling and the search for relaxation is increasingly widespread both at home and outside in environments for users on the move. In fact, the meaning of the name Megius “A Thousand Exciting Drops In One Space” - tells of a close and indissoluble relationship between water, heat, style, functionality, design and services, all rigorously made in Italy, through the combined use of glass, aluminum, steel and wood.

# Style & Innovation

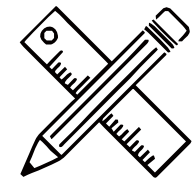

Over the years, the Megius Group has interpreted the changes in taste and style in showers, keeping one step ahead of trends with cutting-edge solutions that are now a part of the industry's design culture, and cascading in all the true essence of its name Megius, “Mille Emozionanti Gocce In Uno Spazio” (“A Thousand Thrilling Droplets In One space”), with the aim of adding style to every emotion. Rasodoccia-Filodoccia, Wellbox, Icona, Doiserie and Zen are just a few of the stages along this journey towards the essence of pure design. Our future depends on our ability to introduce highly significant innovations more quickly than our competitors, which means, more often than not, embarking on new journeys. “It can't be done”: this is the starting point of every Megius challenge. The conventional limitations of style and functionality become a springboard for Megius, a new wall to be knocked down, a wave that sweeps all before it and creates progress.

## EPD®

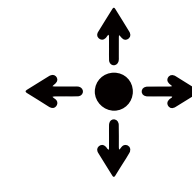

Megius cares about the environment, which is why in collaboration with the “Shower Cabin Technical Working Group” within Assobagno, it has worked to achieve the first EPD shower wall declaration that is unique in the world. This certification highlights the excellence of the sustainability of production processes and Megius products. The EPD® International System is the leading program for companies for environmental declarations based on ISO 14025 and EN 15804.

# Services by Megius

## PRE-INSTALLATION

- GENERAL INSPECTION FOR VISION
- TAKE MEASUREMENTS
- PERSONALIZED GRAPHIC
- SPECIAL SOLUTIONS
- QUESTIONS FOR EACH ROOM

## DURING THE EQUIPMENT

- DISASSEMBLY OF THE REPLACED SHOWER BOXES
- WASTE DISPOSAL OF DISMANTLED SHOWER BOXES
- PACKAGING IDENTIFICATION AND DISTRIBUTION
- ASSEMBLY OF NEW SHOWER BOXES
- WASTE DISPOSAL OF PACKAGING OF THE INSTALLED SHOWER BOXES
- FIRST START-UP

## POST-EQUIPMENT

- ORDINARY MAINTENANCE
- ° EXTRAORDINARY MAINTENANCE
- ° SUPPLY OF SPARE PARTS

# pre-post services

Megius ensures its customers full support at every stage: in selecting the right shower solution, preparing quotations, fitting the shower and providing service assistance and spare parts.

## TAILOR-MADE

The quotation service can deal with all customer-related design situations through the standard and special solutions that Megius offers: special cuts of glass, special inclined profile joints, customised measurements, etc.

## SERVICE CENTERS

Megius service centres contact private customers within 24 hours of their first call. They are obliged to run annual training sessions on all new products; they deal with the measuring up and installation of all Megius shower boxes and are fully independent in the management of spare parts.

# Tecnovetro

A concentrated form of technology that makes a pane of glass a "tecnovetro", in compliance with the standard UNI EN12600. Tecnovetro is tempered glass coated with a 100-micron thick membrane that controls the fragmentation of glass in the event of breakage, limiting possible damage to its surroundings. This film features:

- Excellent transparency
  - Excellent resistance to scratches and abrasions
  - Excellent resistance to heat
- Tecnovetro can be applied to all smooth types of Megius glass in an environmentally-friendly way.

LOW ENVIRONMENTAL  
IMPACT PRODUCT

# Kit Protective

NO PROTECTIVE

PROTECTIVE

Protective is the Megius treatment that resists water adherence. By applying a form of nano-technology to its surface, the glass is made even smoother, thus avoiding considerable amounts of water remaining on the glass. Protective is permanent and environmentally friendly.
