Momenti

Un luogo prende vita quando unisce le persone.

A place that comes alive when
it brings people together

Ritrovo

Prima che la città si risvegli del tutto, c'è già chi la vive come un rito quotidiano. Una sedia che scivola sul pavé, il primo caffè, un giornale lasciato aperto sul tavolo. Ritrovo non è un luogo dove si va: è un luogo in cui si torna. Lo raccontano anche i suoi arredi: vissuti, solidi, presenti. Parte del rituale coreografico che accompagna ogni mattina.

Before the city has fully awakened, there are already those who experience it as a daily ritual. A chair sliding across the cobblestones, the first coffee, a newspaper left open on the table. Ritrovo is not a place you go — it is a place you return to. Its furnishings tell the same story: well-worn, sturdy, ever-present. Part of the choreography of morning.

Creare il desiderio di sedersi e restare.

Creating the desire
to sit down, and stay.

Accoglienza

Sotto gli ulivi, la tavola è già apparecchiata. Nessuna fretta, nessuna formalità: solo un'ospitalità che sembra pensata proprio per te. Accoglienza è l'arte di far sentire le persone come se fossero nel giardino della propria casa. La sedia giusta, l'ombra giusta, la distanza giusta tra le persone. Ogni elemento trova il suo posto, così che nulla sia fittizio.

Beneath the olive trees, the table is already set. No rush, no formality— just the kind of hospitality that feels like it was made for you. Accoglienza is the art of making others feel at home outdoors. The right chair, the right shade, the right distance between people. Everything in its place, so nothing feels arranged.

Quando il tempo si allunga sotto il sole.

When time stretches
under the sun.

Piacere

Qui il tempo segue un altro ritmo. Rallenta, poi smette di preoccuparsi di sé. Un lettino rivolto verso l'acqua, un telo appoggiato con naturalezza, il riflesso della piscina o il rumore del mare che fanno il resto. È l'aspirazione tutta Italiana al Piacere come abitudine, non come ricompensa. L'arredo rende l'ozio semplicemente meraviglioso.

Here, time follows a different rhythm. It slows down, then stops worrying about itself. A sunbed angled toward the water, a towel draped just so, the shimmer of a pool or the sound of the sea doing all the work. It is the distinctly Italian aspiration to pleasure as a way of life, not as a reward. The furniture makes it easy to do nothing beautifully.

L’eleganza italiana, senza ostentazione.

Italian elegance
without insistance.

Sprezzatura

Quando la luce si fa dorata e si allunga, gli spazi acquistano un peso diverso. Una terrazza, un calice, una sedia che accoglie il corpo nel modo giusto. Sprezzatura è naturalezza senza sforzo: non perché nulla sia stato scelto, ma perché ogni scelta scompare nell'esperienza del momento. Il miglior design italiano non ha bisogno di annunciarsi. Semplicemente, appartiene.

As the light turns gold and long, spaces take on a different weight. A terrace, a drink, a chair that holds you just right. Sprezzatura is effortless — not because nothing was chosen, but because every choice disappears into the moment. The best Italian design never announces itself. It simply belongs.

Produzione & Materiali

Tecnologia & Artigianalità

Technology
and craftsmanship

La lavorazione viene eseguita e controllata internamente: dal taglio dei materiali alla loro trasformazione, dai trattamenti protettivi ai sistemi di verniciatura, fino all'imballaggio e allo stoccaggio. Ogni fase del processo è pensata per garantire precisione nella lavorazione delle materie prime, cura dei dettagli, resistenza agli agenti atmosferici e massima sicurezza nel trasporto. Vermobil impronta l'intera produzione su un binomio vincente: tecnologie avanzate e competenza artigianale del massimo livello.

The production process is carried out and controlled internally: from cutting the materials to their transformation, from protective treatments to painting systems, up to packaging and storage. Each phase of the process is designed to ensure precision in raw material processing, attention to details, resistance to weather conditions and maximum safety during transport. Vermobil bases its entire production on a winning combination: advanced technologies and top-level craftsmanship expertise.

→ Processo di verniciatura
Coating process

Metalli

Metals

I mobili da esterno in metallo richiedono interventi manutentivi minimi. Le finiture a polvere, applicate su acciaio e alluminio, assicurano un'elevata resistenza agli agenti atmosferici e riducono l'adesione di sporco. È tuttavia fondamentale controllare l'integrità delle superfici in acciaio periodicamente: eventuali danneggiamenti devono essere trattati con carteggiatura localizzata, applicazione di un sottile strato di antiruggine e successivo ritocco con vernice. Un intervento tempestivo è fondamentale per preservarne l'efficacia nel tempo.

Outdoor metal furniture requires minimal maintenance. The powder coatings applied to steel and aluminum ensure high resistance to weather conditions and reduce the adhesion of dirt. However, it is essential to regularly check the integrity of the steel surfaces: any damage should be treated with localized sanding, application of a thin layer of anti-rust, and a final touch-up with paint. Timely intervention is essential to maintain its effectiveness over time.

→ Poltrone e divani impilati e stoccati nel magazzino dei semilavorati.
Armchairs and sofas stacked and stored in the semi-finished goods warehouse.

Acciaio zincato

Galvanized steel

Caratteristiche | Features

Lega di ferro e carbonio con percentuale di carbonio inferiore al 2%. L'acciaio utilizzato nei prodotti Vermobil è trattato per resistere agli agenti atmosferici tramite processo di zincatura.

Iron-carbon alloy with a percentage of carbon less than 2%. The steel used in Vermobil products is treated to resist atmospheric agents, thanks to the galvanizing process.

Ambiente | Environment

L'acciaio prodotto da materiale di riciclo non presenta alcun degrado nelle proprietà meccaniche, risultando così indistinguibile dal materiale "nuovo". Non viene mai consumato ma continuamente trasformato attraverso i processi di riciclo, per questo è considerato un "materiale permanente", alla base dell'economia circolare.

Steel produced from recycled material does not show any degradation in mechanical properties, thus being identical to the "new" material. It's never consumed but continuously transformed through recycling processes, which is why it's considered a "permanent material", at the base of the circular economy.

Uso e manutenzione | Use and maintenance

Per garantire la massima durata del prodotto, è consigliabile conservarlo durante la stagione invernale in ambienti chiusi e asciutti, evitando che l'umidità provochi condensa. Se i prodotti sono situati in zone di mare, è opportuno pulire le superfici ogni due o tre mesi con detergenti delicati e proteggerle successivamente con olio di vaselina.

IMPORTANTE: evitare di lasciare teli sintetici impermeabili sui piani dei tavoli per lunghi periodi, poiché la condensa potrebbe danneggiare la verniciatura.

To ensure the maximum durability of the product, it is recommended to store it during the winter season in closed, dry environments to prevent humidity from causing condensation. If the products are located in sea areas, it is recommended to clean the surfaces every two or three months with mild detergents and then protect them with vaseline oil.

IMPORTANT: Avoid leaving waterproof synthetic covers on tabletops for long periods, as condensation may damage the finish.

Acciaio smaltato

Enameled steel

Caratteristiche | Features

L'acciaio smaltato è un materiale altamente versatile che unisce le eccellenti proprietà meccaniche dell'acciaio alle caratteristiche estetiche e protettive dello smalto. Il processo di produzione prevede l'applicazione di uno strato di smalto vetroso – una composizione di silicati e ossidi metallici – sulla superficie dell'acciaio, che viene successivamente sottoposto a cottura ad alte temperature. Tale trattamento conferisce al materiale una finitura durevole, priva di porosità, che risulta particolarmente resistente a urti, graffi e abrasioni. Lo smalto, infatti, funge da barriera protettiva contro la corrosione e l'usura, rendendo l'acciaio smaltato una scelta ideale per applicazioni ad uso intensivo.

Enameled steel is a highly versatile material that combines the exceptional mechanical properties of steel with the aesthetic and protective qualities of enamel. The production process involves applying a vitreous enamel layer - composed of silicates and metallic oxides - onto the steel surface, which is then heated at high temperatures. This process creates a durable, non-porous finish that is highly resistant to impact, scratches, and abrasion. The enamel layer acts as a protective barrier against corrosion and wear, making enameled steel an ideal choice for applications requiring high durability and frequent use.

Ambiente | Environment

L'acciaio smaltato è un materiale interamente riciclabile, senza alcun impatto negativo sull'ambiente. Sia l'acciaio che il rivestimento vetroso possono essere recuperati e reintrodotti nel ciclo produttivo, promuovendo l'economia circolare e riducendo al contempo la necessità di estrarre nuove risorse naturali.

Enameled steel is a fully recyclable material with no negative environmental impact. Both the steel substrate and the vitreous enamel coating can be recovered and reintroduced into the production cycle, promoting the circular economy while simultaneously reducing the need for the extraction of new natural resources.

Uso e manutenzione | Use and maintenance

La superficie liscia e non porosa dello smalto impedisce l'adesione di batteri, germi e sporco, conferendogli caratteristiche di elevata igiene e facilitando le operazioni di pulizia. Grazie a queste proprietà, è possibile mantenere il materiale perfettamente pulito anche utilizzando semplici panni umidi e detergenti neutri.

The smooth, non-porous surface of enamel prevents the adhesion of bacteria, germs, and dirt, ensuring high hygienic standards and making cleaning effortless. Thanks to these properties, the material is easy to maintain and can be kept perfectly clean using only damp cloths and mild, neutral detergents.

→ Fasci di tubi stoccati e pronti per il taglio.
Bundles of tubes stored and ready for cutting.

Alluminio

Aluminium

Caratteristiche | Features

Lega 6060 e 6082: leghe di alluminio, magnesio e silicio, ideali per l'arredamento grazie alla loro leggerezza e all'eccellente resistenza alla corrosione.

Alloy 6060 and 6082: aluminum, magnesium, and silicon alloys, ideal for furniture due to their lightness and excellent corrosion resistance.

Riciclabile | Recyclable

È un materiale riciclabile al 100%, può essere riutilizzato all'infinito, senza perdere le proprie caratteristiche.

It is a 100% recyclable material, it can be reused indefinitely, without losing its characteristics.

Uso e manutenzione | Use and maintenance

Il modo migliore per assicurare la massima durata al prodotto è conservarlo durante la stagione invernale in luoghi chiusi e asciutti, per evitare che l'umidità crei condensa. Nel caso in cui i prodotti si trovino in una zona di mare è opportuno pulire le superfici ogni tre mesi con detergenti delicati, proteggendole poi con olio di vaselina. IMPORTANTE: sui piani dei tavoli, non lasciare teli sintetici impermeabili per tempi prolungati. La condensa potrebbe danneggiare la verniciatura.

The best way to ensure maximum product durability is to store it during winter in closed and dry places, to prevent humidity from creating condensation. If the furniture is placed in a sea area, it is recommended to clean the surfaces every two or three months with mild detergents, then apply a protective layer of Vaseline oil. IMPORTANT: do not leave waterproof synthetic sheets over the tabletops for a long time. Condensation could damage the paint.

Acciaio inox AISI 316L

Stainless steel

Caratteristiche | Features

L’acciaio inox AISI 316L è una lega metallica molto apprezzata per la sua resistenza alla corrosione e la versatilità. Grazie alla presenza di molibdeno nella sua composizione, è particolarmente indicato per ambienti aggressivi come quelli marini.

AISI 316L stainless steel is a metal alloy highly valued for its corrosion resistance and versatility. Thanks to the presence of molybdenum in its composition, it is particularly suitable for aggressive environments such as marine settings.

Ambiente | Environment

L’acciaio inox è un campione di sostenibilità Riciclato all’infinito senza perdere qualità, riduce drasticamente le emissioni e preserva le risorse naturali.

Stainless steel is a champion of sustainability Endlessly recycled without losing quality, it drastically reduces emissions and preserves natural resources.

Uso e manutenzione | Use and maintenance

Il modo migliore per assicurare la massima durata al prodotto è conservarlo durante la stagione invernale in luoghi chiusi e asciutti, per evitare che l’umidità crei condensa. The best way to ensure maximum product durability is to store it during the winter season in closed and dry places to prevent moisture from creating condensation. If the products are in a seaside area, it is advisable to clean the surfaces every two/three months with mild detergents, then protect them with vaseline oil.

IMPORTANT: Do not leave synthetic waterproof covers on tabletops for prolonged periods. Condensation could damage the paint.

Acciaio inox AISI 304

Stainless steel

Caratteristiche | Features

Lega austenitica ad altissima resistenza alla corrosione e agli agenti atmosferici. Garantisce massima stabilità strutturale, inalterabilità estetica e protezione dalla ruggine nel tempo. Soluzione ideale per l’outdoor, igienica e a manutenzione minima.

Austenitic alloy offering exceptional resistance to corrosion and weathering. It ensures outstanding structural stability, long-term aesthetic durability, and reliable protection against rust. An ideal choice for outdoor environments, combining hygiene with minimal maintenance requirements.

Tessuti

Fabrics

I cuscini Vermobil sono realizzati con tessuti di alta qualità, resistenti ai raggi UV e impermeabili grazie alla spalmatura interna in PVC. L'intreccio tecnico favorisce la traspirazione dell'imbottitura, prevenendo la creazione di muffe. I tessuti, grazie alle loro proprietà antimacchia, risultano facili da pulire e garantiscono un'igiene completa.

I cuscini Vermobil sono costituiti da un interno in poliuretano espanso, disponibile in diverse densità a seconda del modello, rivestito da fibra di poliestere accoppiata a TNT. Questa struttura garantisce durata nel tempo, facilita le operazioni di sfoderamento e rinsacco, e conferisce al cuscino una piacevole morbidezza al tatto. La combinazione di densità e spessore definisce il livello di comfort dei cuscini, mentre l'elevata elasticità del materiale garantisce una forma stabile e duratura nel tempo.

Vermobil cushions are made with high-quality fabrics that are UV-resistant and waterproof thanks to an internal PVC coating. The technical weave promotes breathability of the padding, helping to prevent mold formation. The fabrics' stain-resistant properties make them easy to clean while ensuring complete hygiene.

Vermobil cushions are made of a polyurethane foam available in different densities depending on the model, wrapped in polyester fiber coupled with TNT. This structure ensures long-lasting durability, facilitates removal and reinsertion of the filling, and provides a soft, comfortable feel. The combination of density and thickness defines the cushions' comfort level, while the high elasticity of the material ensures a stable and durable shape over time.

Tessuti Business

Business fabrics

100% Acrilico Tinto in Massa. I tessuti utilizzati per i cuscini Vermobil sono studiati per soddisfare le esigenze di pulizia e igiene, sia in ambito domestico che nel settore contract. Grazie alle loro proprietà antimacchia, risultano estremamente facili da pulire. A seconda del tipo di sporco, è sufficiente utilizzare acqua e detersivi per ottenere risultati impeccabili. Questo consente una pulizia profonda, garantendo un'igiene completa e l'eliminazione di microrganismi, virus e batteri.

100% Solution Dyed Acrylic. The fabrics used for Vermobil cushions are designed to meet the highest standards of cleanliness and hygiene, both for residential use and in the contract sector. Thanks to their stain-resistant properties, they are extremely easy to clean. Depending on the type of dirt, simply using water and detergents is enough to achieve impeccable results. This allows for deep cleaning, ensuring complete hygiene and the elimination of microorganisms, viruses, and bacteria.

Tessuti Ombrelloni

Sunshade fabrics

100% Acrilico Tinto in Massa. Questi tessuti sono specificatamente studiati per la realizzazione di ombrelloni da giardino di medie e grandi dimensioni. Garantiscono protezione dai raggi UV e durata nel tempo assicurando un miglior comfort termico e visivo sia in ambienti privati che in ambienti pubblici. Inattaccabili da funghi, muffe e salsedine, mantengono la loro bellezza senza necessitare di complicate manutenzioni o frequenti lavaggi. Le macchie sui tessuti utilizzati nei nostri ombrelloni possono essere eliminate con una semplice soluzione di acqua (non più di 40°C) e sapone, spazzolando e risciacquando accuratamente. Lasciare asciugare il tessuto all'aria aperta. Non asciugare con apparecchi elettrici e non stirare con vapore.

100% Solution-Dyed Acrylic. These fabrics are specifically designed for the production of medium and large sunshades. They provide excellent UV protection and long-lasting durability, ensuring enhanced thermal and visual comfort in both private and public outdoor spaces. Resistant to fungi, mold, and salt, they retain their appearance without the need for complex maintenance or frequent washing. Any stains on the fabrics used in our sunshades can be removed with a simple solution of water (maximum 40°C) and mild soap, gently brushed and thoroughly rinsed. Allow the fabric to air dry. Do not use electric dryers and do not steam iron.

Corde

Ropes

La corda sintetica Vermobil è realizzata con una fibra poliolefinica italiana, brevettata per applicazioni outdoor, composta al 65% da Olyna e al 35% da poliestere. La fibra è totalmente impermeabile, antimacchia, antibatterica e altamente resistente ai raggi UV, al cloro e all'umidità. Inoltre, è 100% riciclabile e atossica, in conformità con la certificazione OEKO-TEX Standard 100 – Classe 1. Manutenzione: per la pulizia delle superfici in corda si consiglia l'utilizzo di acqua tiepida (temperatura massima 40°C) e sapone neutro. Strofinare delicatamente con un panno morbido e risciacquare accuratamente. Se necessario, ripetere l'operazione.
Per velocizzare il processo di asciugatura è possibile usare il getto d'aria calda di un phon ad una distanza minima di 10 centimetri. Per eliminare polvere e altri residui dall'intreccio della corda si consiglia l'utilizzo di un'aspirapolvere con ugello a spazzola.

Conservazione: i prodotti Vermobil in corda vanno conservati in luoghi chiusi e asciutti, proteggendoli con teli in tessuto traspirante.

The Vermobil synthetic rope is made from an Italian polyolefin fiber, patented for outdoor applications, composed of 65% Olyna and 35% polyester. The fiber is completely waterproof, stain-resistant, antibacterial, and highly resistant to UV rays, chlorine, and humidity. Additionally, it is 100% recyclable and non-toxic, in compliance with OEKO-TEX Standard 100 – Class 1 certification. Maintenance: to clean rope surfaces, it is recommended to use lukewarm water (maximum temperature 40°C) and a neutral soap. Gently scrub with a soft cloth and rinse carefully. Repeat the process if necessary. To speed up the drying process, a hair dryer may be used, keeping it at a minimum distance of 10 cm from the surface. To remove dust and other residues from the rope weave, it is recommended to use a vacuum cleaner with a brush nozzle.

Storage: Vermobil rope products must be stored in enclosed, dry places and protected with breathable fabric covers.

Batyline

Fibra di poliestere rivestita con una guaina in PVC resistente agli agenti atmosferici e ai raggi UV. Evitare il contatto con sostanze grasse o coloranti, poiché il materiale di rivestimento potrebbe assorbirle, compromettendo la struttura del filato e causando macchie indelebili. Per lavaggi frequenti, usare acqua e detergenti liquidi, incolori, non abrasivi e a pH neutro. Per macchie ostinate, lasciare agire il detergente alcuni minuti e risciacquare a massimo 30°C. Per la pulizia con apparecchi a pressione, mantenere i diffusori ad almeno 70 cm di distanza dalla superficie da trattare. Per lavaggi periodici o straordinari si consiglia l'uso di uno smacchiatore rigenerante per PVC: applicare il prodotto sulla superficie e lasciarlo agire per 15–30 minuti, quindi strofinare con una spazzola da bucato a setole dure. Infine, risciacquare abbondantemente con acqua corrente. IMPORTANTE: evitare che il detergente entri in contatto con le parti verniciate.

Polyester fiber coated with a PVC sheath resistant to weather conditions and UV rays. Avoid contact with greasy substances or dyes, as the coating material may absorb them, compromising the fiber structure and causing permanent stains. For frequent cleaning, use water and colorless, non-abrasive liquid detergents with a neutral pH. For stubborn stains, allow the detergent to act for 15–30 minutes, then rinse with water at a maximum temperature of 30°C. When cleaning with pressure devices, keep the nozzles at least 70 cm away from the surface to be treated. For periodic or intensive cleaning, it is recommended to use a PVC regenerating stain remover: apply the product to the surface and let it sit for 15–30 minutes, then scrub with a stiff-bristled laundry brush. Finally, rinse thoroughly with running water. IMPORTANT: avoid contact of the detergent with painted areas.

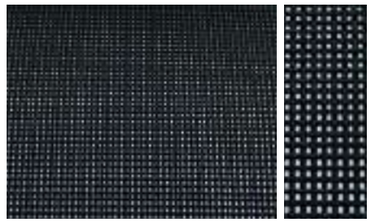

Basic

Fibra di poliestere. Evitare contatto con grassi e coloranti. Per lavaggi frequenti usare acqua e detergenti liquidi incolori, non abrasivi e a pH neutro. Per macchie ostinate, lasciare agire il detergente alcuni minuti e risciacquare a massimo 30°C. Con apparecchi a pressione, mantenere almeno 70 cm di distanza. Per pulizie profonde usare smacchiatore rigenerante per PVC: lasciare agire 15-30 minuti, strofinare con spazzola a setole dure e risciacquare. Evitare che il detergente tocchi aree non interessate.

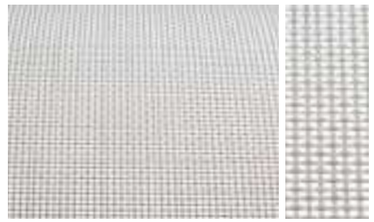

Polyester fibre. Avoid contact with grease and dyes. For frequent cleaning, use water and liquid detergents that are colorless, nonabrasive, and pH-neutral. For stubborn stains, let the detergent sit for a few minutes, then rinse at a maximum of 30°C. When using pressure washers, maintain a minimum distance of 70 cm. For deep cleaning, use a PVC restoring stain remover: let it act for 15–30 minutes, scrub with a hard-bristle brush, and rinse. Avoid contact of the detergent with unaffected areas.

HPL

L’HPL è un materiale composito costituito da strati di fibre di cellulosa impregnate con resine termoindurenti, come resine fenoliche o epossidiche, sottoposte a un processo di alta pressione e temperatura. Questo processo, che applica simultaneamente calore e pressione, trasforma gli strati in un foglio rigido e resistente, ideale per l’uso esterno grazie alla sua elevata resistenza agli agenti atmosferici. Le superfici in HPL presentano numerosi vantaggi, tra cui: alta resistenza ai graffi e all’usura, facilità di pulizia grazie alla bassa assorbenza di sporco e macchie, resistenza alle alte temperature e agli agenti chimici.

HPL is a composite material made of layers of cellulose fibers impregnated with thermosetting resins, such as phenolic or epoxy resins, subjected to a high-pressure and high-temperature process. This process, which simultaneously applies heat and pressure, transforms the layers into a rigid and durable sheet, ideal for outdoor use due to its high resistance to atmospheric agents. HPL surfaces offer numerous advantages, including: high resistance to scratches and wear, ease of cleaning thanks to low dirt and stain absorbency, resistance to high temperatures and chemical agents.

Condizioni generali di vendita

Sales terms and conditions

IT

1. Definizioni
Alle seguenti espressioni le Parti attribuiscono convenzionalmente i significati qui precisati: " Venditore " indica VERMOBIL STYLE SRL; "Compratore" indica l'acquirente dei Prodotti indicato nella relativa fattura di vendita; " Prodotti"designa i prodotti descritti nel retro del presente documento; " Territorio " indica lo Stato nel quale i prodotti verranno consegnati dal Venditore. "Prezzo di vendita" indica il prezzo riportato in fattura.

2. Efficacia delle condizioni e degli allegati
2a) Le condizioni Generali sono le uniche condizioni applicabili in relazione alla vendita dei Prodotti e, ferme restando le eventuali disposizioni inderogabili di legge, si applicano con esclusione di ogni altra condizione implicita o esplicita.
2b) Le presenti Condizioni Generali (congiuntamente al "Contratto") costituiscono l'intero accordo tra le parti in relazione alla vendita dei relativi Prodotti e sostituiscono ogni precedente promessa, dichiarazione o obbligazione tra le stesse.
2c) Le Condizioni Generali potranno essere derogate o modificate solo a seguito di accordo scritto tra Compratore e Venditore.

3. Ordini e perfezionamento del contratto
Ciascun Contratto per la vendita di Prodotti tra le parti si intenderà perfezionato nel momento in cui il Compratore riceverà una conferma d'ordine del Venditore (la "Conferma d'Ordine"). Qualsiasi offerta o preventivo
inviato dal Venditore al Compratore in relazione ai Prodotti (in qualsiasi forma gli stessi siano comunicati) deve intendersi soggetto alle presenti Condizioni Generali.

4. Variazione di prezzo
Il Venditore si riserva il diritto di modificare, mediante semplice comunicazione scritta al Compratore in qualsiasi momento precedente alla ricezione, da parte del Compratore stesso, della Conferma d'Ordine, il prezzo di acquisto dei prodotti (il "Prezzo di Acquisto") per includere nello stesso ogni incremento dei costi delle materie prime, della produzione, delle confezioni, del trasporto o della manodopera.
Per colori non riportati a catalogo è prevista una maggiorazione minima del 15% e comunque la fornitura è subordinata all'accettazione della VERMOBIL STYLE SRL.

5. Pagamento
a) Salvo quanto diversamente stabilito dal Venditore, il pagamento integrale del Prezzo di Vendita deve essere effettuato entro la data indicata nella rispettiva fattura.
b) Tutti i pagamenti dovranno essere effettuati nel rispetto dei termini e delle modalità previsti nel presente Contratto. In caso di ritardato pagamento delle fatture matureranno a carico del Compratore, senza necessità di costituzione di mora, interessi moratori in misura pari al tasso di interesse del principale strumento di finanziamento della Banca Centrale Europea applicato alla sua più recente operazione di rifinanziamento, maggiorato di 7 punti percentuali, ex D.lgs.231/2002.
c) Fermo restando quanto sopra, nel caso in cui i pagamenti non venissero effettuati nel rispetto dei termini previsti nelle Condizioni Generali, il Venditore avrà il diritto di sospendere la consegna dei Prodotti ordinati dal Compratore, fintantoché non venga raggiunto un accordo sul pagamento di quanto dovuto dal Compratore.
d) Nel caso in cui il pagamento dei Prodotti non venisse effettuato dal Compratore nel rispetto dei termini previsti nelle Condizioni Generali, inoltre, il Venditore avrà il diritto di ottenere dal Compratore stesso il rimborso di tutti i costi sostenuti per il recupero degli importi scaduti, incluse eventuali spese bancarie, legali sia stragiudiziali che giudiziali.

6. Consegna
a) I Prodotti sono consegnati franco destino salvo diverse indicazioni scritte. Per ordini di valore inferiore a Euro1.000,00 + iva è richiesto un contributo a carico del Compratore di € 45,00 + iva. Per le Isole, per gli ordini di valore inferiore a Euro 1.000,00 + iva le spese di trasporto sono a carico del Compratore. Per ordini superiori è richiesto un contributo pari al 7% del valore dell'ordine. Per le isole minori il trasporto è a carico del Compratore.
b) I termini di consegna sono indicativi e il Venditore non sarà responsabile per eventuali ritardi, perdite o danni subiti a causa del mancato rispetto degli stessi.
c) Consegna su destinazione diversa contributo di € 75,00 + Iva

7. Riserva di proprietà e rischio
a) Indipendentemente dalla consegna dei prodotti, la vendita si intende effettuata con riserva di proprietà dei prodotti medesimi in capo al Venditore fino all'integrale pagamento del Prezzo di Vendita da parte del Compratore ai sensi e per gli effetti di cui all'art.1523 c.c..
b) Il Compratore riconosce ed accetta che, fino al momento in cui non verrà effettuato il pagamento integrale del Prezzo di Vendita, sarà possessore dei prodotti esclusivamente in qualità di depositario del Venditore e provvederà a conservare i Prodotti separatamente da altri prodotti, in perfetto stato e in maniera tale che gli stessi siano prontamente identificabili ed ispezionabili dal Venditore in qualsiasi momento.
c) Nel caso in cui i Prodotti vengono consegnati ad un indirizzo diverso da quello del Compratore, il Venditore potrà in qualsiasi momento antecedente alla vendita dei Prodotti e previa comunicazione al Compratore, con congruo preavviso, avere accesso ai luoghi in cui sono stati consegnati i Prodotti stessi per poterne riprendere il possesso dei Prodotti di cui il Venditore sia ancora proprietario, in forza di quanto previsto al punto a). Il Compratore si obbliga sin d'ora a compiere quanto necessario per consentire al Venditore l'esercizio di tale diritto.
d) Le disposizioni di cui al presente articolo non possono essere interpretate nel senso di attribuire al Compratore il diritto di restituire i Prodotti o di rifiutare, rinviare o sospendere il pagamento degli stessi, salvo che non sia stato altrimenti stabilito tra le parti.

8. Garanzie
a) Il Venditore garantisce che al momento della consegna i Prodotti sono esenti da vizi e rispondono alle specifiche indicate dal Venditore stesso, purché tali prodotti siano utilizzati dal Compratore per finalità conformi a quelle per cui tale tipologia di prodotti viene normalmente utilizzata. Nel caso in cui il Venditore non abbia comunicato alcuna particolare specifica in relazione ad un determinato prodotto, lo stesso, al momento della consegna, si intende rispondente agli ordinari standard qualitativi di mercato per prodotti industriali simili. Fermo restando quanto previsto dall'articolo 8b) e, nel caso in cui un Prodotto risulterà non conforme alla garanzia di cui sopra, il Venditore, avrà diritto a propria discrezione, di: 1) sostituire i Prodotti o parti di essi non conformi; 2) modificare i Prodotti per renderli conformi alle specifiche indicate dal Venditore o (a seconda del caso) a standard qualitativi di mercato per prodotti simili; 3) ritirare i Prodotti non conformi e rimborsare totalmente il relativo prezzo di vendita.
b) La garanzia di cui sopra, opererà a condizione che:
1) il Compratore abbia osservato le disposizioni del successivo articolo 10, per quanto applicabili; 2) il Compratore abbia comunicato per iscritto e documentato tramite foto su supporto tradizionale o digitale al Venditore i vizi entro 14 (quattordici) giorni dalla consegna dei Prodotti nel caso di vizi facilmente riconoscibili ed entro 14 (quattordici) giorni dalla scoperta di vizi occulti. L'azione del Compratore si prescriverà in ogni caso entro 2 (due) anni dalla consegna dei prodotti; 3) il Compratore conceda al Venditore la possibilità di ispezionare, con modalità ragionevoli, i Prodotti;
4) il Compratore abbia cessato l'utilizzo di prodotti non conformi dal momento della scoperta dei difetti dallo stesso dichiarati. c) Fermo restando quanto previsto dall'articolo 8a) che precede e fatte salve le eventuali disposizioni inderogabili di legge:
1) è espressamente esclusa qualsiasi altra garanzia, esplicita o implicita, in merito alle qualità, alla commerciabilità o all'idoneità dei Prodotti per fini specifici; 2) il Venditore non sarà ritenuto responsabile per eventuali perdite o danni subiti dal Compratore a causa del difetto o del non funzionamento del prodotto non coperto dalla presente garanzia. d) il Venditore farà quanto ragionevolmente possibile per fornire al compratore eventuali istruzioni, raccomandazioni e consigli per la conservazione, l'utilizzo dei Prodotti e le relative condizioni d'impiego. Resta inteso che sarà responsabilità del Compratore assicurare che i Prodotti vengano utilizzati in conformità alle relative specifiche e modalità d'uso dei prodotti medesimi.

9. Quantità
Il Compratore dovrà comunicare per iscritto, con lettera da inoltrarsi a mezzo telefax o pec, al Venditore l'eventuale consegna di un quantitativo di Prodotti difforme (sia esso superiore o inferiore) rispetto a quello originariamente ordinato dal Compratore stesso, entro il termine perentorio di 8 (otto) giorni dalla data di ricevimento della merce.
a) Nel caso in cui la quantità di Prodotti consegnata al Compratore dovesse essere inferiore alla quantità dallo stesso ordinata, il Compratore avrà diritto di ottenere: 1) il quantitativo mancante rispetto all'ordine iniziale; 2) una riduzione del prezzo di Vendita;
b) Nel caso in cui la quantità di Prodotti consegnata al Compratore dovesse essere superiore alla quantità dallo stesso ordinata, il Compratore avrà diritto, alternativamente, di: 1) restituire il quantitativo di Prodotti consegnato in eccesso; 2) trattenere l'intero quantitativo di Prodotti consegnato, corrispondendo l'intero Prezzo di Vendita degli stessi.
c) Resta comunque inteso che l'eventuale consegna di un quantitativo di Prodotti diverso rispetto a quello ordinato (sia esso superiore o inferiore) non darà diritto al Compratore di rifiutare la fornitura e che qualsiasi restituzione di Prodotti dovrà, comunque, essere preventivamente concordata ai sensi dell'articolo 11 e sempre che sia stata data tempestiva denuncia ai sensi del successivo art.10 lett.b).

10. Comunicazione di vizi o mancata e/o difforme consegna
a) il Compratore dovrà comunicare per iscritto, con lettera da inoltrarsi a mezzo telefax o pec, al Venditore ogni evento ritenuto coperto dalla garanzia di cui all'articolo 8 A) entro e non oltre i termini di cui all'articolo 8 B.2., a pena di decadenza.
b) il Compratore dovrà, altresì, comunicare per iscritto al Venditore l'eventuale consegna di un quantitativo di Prodotti difforme entro e non oltre i termini di cui all'articolo 8 a pena di decenza ed ai fini dell'esercizio dei diritti.
c) Decorso il termine di cui all'articolo 10b) che precede, il quantitativo di Prodotti effettivamente consegnati al Compratore si considererà dallo stesso definitivamente accettato. In tale circostanza il Compratore sarà
pertanto obbligato a pagare integralmente il Prezzo d' Acquisto indicato nella fattura relativa ai Prodotti effettivamente consegnati.

11. Restituzione dei prodotti
In nessun caso un prodotto potrà essere restituito al Venditore senza il preventivo consenso scritto di quest'ultimo.

12. Diritti di proprietà intellettuale
a) In relazione alla proprietà intellettuale, il Venditore garantisce esclusivamente che la consegna e l'utilizzo dei Prodotti non violano alcun brevetto, disegno o modello industriale, diritto d'autore, marchio registrato o segreto aziendale di terzi esistenti nel Territorio alla data dei " Prodotti " (i " Diritti di Proprietà Intellettuale "). Il Venditore risarcirà al Compratore gli eventuali danni che lo stesso dovesse subire per effetto della violazione di tale garanzia. b) La garanzia non si applica e, pertanto, il Compratore non avrà diritto a risarcimento alcuno, qualora si verifichi anche una sola delle seguenti ipotesi:
1) il Venditore abbia adottato e seguito, per la fornitura dei Prodotti, istruzioni specifiche del Compratore che abbiano determinato una violazione dei Diritti di Proprietà Intellettuale; 2) la violazione dei Diritti di Proprietà Intellettuale sia causata dall'utilizzo dei Prodotti con modalità, ovvero per finalità e/o in luoghi non preventivamente specificati o altrimenti indicati per iscritto al Venditore; 3) il Compratore non abbia informato il Venditore per iscritto dell'esistenza di contestazioni, reclami o azioni giudiziali (intraprese o minacciate) nei confronti del Compratore stesso entro i successivi trenta giorni dal ricevimento di dette contestazioni o reclami o azioni e relativi ai Diritti di Proprietà Intellettuale; 4) il Compratore, pur avendo osservato quanto previsto al precedente punto 12.a.3, non consente al Venditore di assumere – a proprie spese – la gestione della lite o di partecipare ad eventuali transazioni. c) il Compratore garantisce che qualsiasi indicazione o specifica istruzione relativa alla fornitura di Prodotti eventualmente fornita al Venditore, non causerà una violazione, da parte del Venditore, di Diritti di Proprietà Intellettuale di Terzi e si obbliga a risarcire al Venditore tutti i danni che quest'ultimo dovesse subire nel caso tale violazione dovesse verificarsi.

13. Forza maggiore
Il Venditore non sarà responsabile per eventuali perdite o danni causati dal ritardo nell'adempimento o dall'inadempimento delle proprie obbligazioni ai sensi del presente Contratto nel caso in cui gli stessi siano dovuti ad una qualsiasi causa che sia fuori dal proprio controllo, inclusi, a titolo esemplificativo e non esaustivo, guerre, sommosse civili, ordine o divieto sopravvenuto imposto dalla normativa o da pubbliche autorità, regolamenti relativi alle importazioni o alle esportazioni, scioperi o agitazioni sindacali (relativi ai propri dipendenti o ai propri dipendenti di altri soggetti) difficoltà nel rintracciare personale o materiali, guasti di macchinari, incendi o incidenti. Nel caso in cui si verifichi uno qualsiasi di tali eventi, il Venditore potrà risolvere il presente Contratto o sospenderne l'esecuzione senza incorrere in alcuna responsabilità per qualsiasi perdita o danno derivanti da tale azione.

14. Tasse
Il Prezzo di Vendita ed ogni altra somma dovuta al Venditore ai sensi del presente Contratto è soggetta all'applicazione dell'Imposta sul Valore Aggiunto (qualsiasi nuova imposta applicabile alla vendita, produzione o trasporto dei Prodotti diversa da un'imposta sul reddito del Venditore) nella misura di legge e ove previste.

15. Cessione
Il presente Contratto potrà essere ceduto dal Compratore solo con il preventivo consenso scritto del Venditore.

16. Legge applicabile - Foro competente
Il presente Contratto è governato a tutti gli effetti dalla legge italiana. Qualsiasi controversia, comunque, connessa al presente Contratto sarà soggetta alla competenza esclusiva del Foro di Perugia.

EN

1. Definitions
The Parties conventionally assign the following meanings to the following expressions: "Seller" means VERMOBIL STYLE SRL; "Purchaser" means the purchaser of the Products indicated in the relevant sales invoice; "Products" means the products described in the back of this document; "Territory" means the State in which the products will be delivered by the Seller. "Sales Price" means the price indicated on the invoice.

2. Validity of conditions and annexes
2a) The General Conditions are the only conditions applicable in relation to the sale of the Products and, without prejudice to any mandatory provisions of law, apply to the exclusion of any other condition implicit or explicit.
2b) These General Conditions (together with the "Contract") represent the entire agreement between the parties in relation to the sale of the relative Products and replace any previous promise, declaration or obligation between them.
2c) The General Conditions may be waived or amended only by written agreement between the Purchaser and the Seller.

3. Orders and conclusion of contract
Each Contract for the sale of Products between the parties shall be effective when the Purchaser receives an order confirmation from the Seller ("Order Confirmation"). Any offer or estimate sent by the Seller to the Purchaser in relation to the Products (in whatever form they are communicated) shall be considered subject to these General Conditions.

4. Price variation
The Seller reserves the right to modify, by simple written communication to the Purchaser at any time prior to the receipt by the Purchaser of the Order Confirmation, the purchase price of the products (the "Purchase Price") to include in the same any increase in the costs of raw materials, production, packaging, transport or labor.
For colours not included in the catalogue there is a minimum increase of 15% and in any case the supply is subject to the acceptance of VERMOBIL STYLE SRL.

5. Payment, due date
a) Unless otherwise agreed by the Seller, full payment of the Sales Price must be made by the date indicated on the applicable invoice.
b) All payments shall be made under the terms and conditions set out in this Contract. In case of delayed payment of the invoices, the Purchaser shall be charged, without the need for a formal notice of default, default interest at an amount equal to the interest rate of the main financial instrument of the European Central Bank as applied to its most recent refinancing operation, increased by 7 percentage points, pursuant to Italian Legislative Decree 231/2002.
c) Without prejudice to the aforementioned provisions, in the event that the payments are not made in accordance with the terms provided for in the General Conditions, the Seller shall have the right to suspend the delivery of the Products ordered by the Purchaser, until an agreement is reached on the payment of the amount due by the Purchaser.
d) Moreover, in the event that the payment of the Products is not made by the Purchaser in compliance with the terms provided for in the General Conditions, the Seller shall be entitled to be refunded by the Purchaser for all costs incurred for the recovery of the amounts due, including any bank, legal, extra-judicial or judicial expenses.

6. Delivery
a) The Products are delivered free at destination unless otherwise indicated in writing. For orders with a value of less than Euro 1,000.00 + VAT, a charge of Euro 45.00 + VAT is required. For the Islands, for orders with a value of less than Euro 1,000.00 + VAT, the transport costs are to be borne by the Purchaser. For orders higher than that amount, a contribution of 7% of the order value is required. For the smaller islands the transport is at the Purchaser's expense.
b) The delivery terms are merely indicative and the Seller shall not be liable for any delays, losses or damages incurred due to non-compliance with them.
c) Delivery to a destination different than the Purchaser's address is subject to a contribution of € 75,00 + VAT

7. Transfer of Ownership, Risk
a) Delivery of the Products notwithstanding, the ownership of the Products is retained by the Seller until full payment of the Sale Price by the Purchaser is received, pursuant to Article 1523 of the Italian Civil Code.
b) The Purchaser acknowledges and accepts that, until full payment of the Sale Price has been made, he will possess the Products only on behalf of the Seller, and will keep the Products distinct from other products, in perfect condition and in such a way that they can be readily identified and inspected by the Seller at any time.
c) In the event that the Products are delivered to an address different from that of the Purchaser, the Seller may at any time prior to the sale of the Products and upon notice to the Purchaser, given in reasonable advance, have access to the places where the Products have been delivered, in order to regain possession of the Products of which the Seller is still the owner, in accordance with the provisions of point a). The Purchaser hereby commits to undertake all that is necessary to allow the Seller to exercise such right.
d) The provisions of this article cannot be interpreted in the sense of giving the Purchaser the right to return the Products or to refuse, postpone or suspend payment of the same, unless otherwise agreed between the parties.

8. Warranty
a) The Seller guarantees that at the time of delivery the Products are free from defects and meet the specifications indicated by the Seller, provided that such products are used by the Purchaser for purposes consistent with those for which such types of products are normally used. In the event that the Seller has not communicated any particular specification in relation to a given product, such product, at the time of delivery, shall be deemed to meet the ordinary quality standards of the relevant market for comparable industrial products. Without prejudice to the provisions of article 8b) and, in the event that a Product does not conform to the above warranty, the Seller shall be entitled, at its sole discretion, to: 1) replace the Products or parts thereof that do not conform; 2) modify the Products to make them conform to the specifications indicated by the Seller or (as the case may be) to market quality standards for comparable products; 3) withdraw the non-conforming Products and refund the relevant sales price in full.
b) The above warranty shall be valid on the condition that:
1) the Purchaser has complied with the provisions of article 10 below, to the extent applicable; 2) the Purchaser has notified the Seller in writing and documented the defects by means of photos on traditional or digital media within 14 (fourteen) days from the delivery of the Products in the case of easily recognizable defects and within 14 (fourteen) days from detection for hidden defects. The Purchaser's warranty claims become time-barred in any case after 2 (two) years from the delivery of the Products; 3) the Purchaser shall grant the Seller the opportunity to inspect the Products in a reasonable manner; 4) the Purchaser has ceased to use non-conforming products from the moment of discovery of the notified defects.
c) Without prejudice to the provisions of article 8a) above and without prejudice to any mandatory provisions of law:
1) any other guarantee, explicit or implicit, regarding the quality, marketability or suitability of the Products for specific purposes is expressly excluded; 2) the Seller shall not be held liable for any loss or damage suffered by the Purchaser as a result of the defect or non-functioning of the product not covered by this guarantee. d) the Seller shall make every reasonable effort to provide the Purchaser with any instructions, recommendations and advice for the storage, use and conditions of use of the Products. It is understood that it shall be the Purchaser's responsibility to ensure that the Products are used in accordance with the relative specifications and intended use of the Products themselves.

9. Quantity
The Purchaser shall notify the Seller in writing, by fax or PEC (Italian legally certified e-mail), of any delivery of a quantity of Products other than the quantity originally ordered by the Purchaser (whether higher or lower), within the mandatory term of 8 (eight) days from the date of receipt of the goods.
a) If the quantity of Products delivered to the Purchaser should be less than the quantity ordered by the same, the Purchaser shall have the right to obtain: 1) the missing quantity compared to the initial order; 2) a reduction in the Selling price;
b) If the quantity of Products delivered to the Purchaser should be greater than the quantity ordered by the same, the Purchaser shall have the right, alternatively, to: 1) return the quantity of Products delivered in excess; 2) retain the entire quantity of Products delivered, paying the entire Sale Price of the same.
c) It is however understood that the possible delivery of a quantity of Products different from the one ordered (whether higher or lower) shall not entitle the Purchaser to refuse the supply and that any return of Products shall, in any case, be previously agreed upon pursuant to article 11 and provided that timely notice has been given pursuant to article 10 letter b) below.

10. Notification of defects or of missing and/or nonconformant delivery
a) The Purchaser shall notify the Seller in writing, by fax or PEC (Italian legally certified e-mail), about any event which is deemed to be covered by the warranty referred to in article 8, no later than the terms referred to in article 8b.2, under penalty of forfeiture.
b) The Purchaser shall also notify the Seller in writing about any delivery of a nonconforming quantity of Products no later than the terms referred to in article 8, under penalty of forfeiture and for the purpose of exercising the rights.
c) After the term referred to in article 10b above has elapsed, the quantity of Products actually delivered to the Purchaser shall be deemed fully accepted by the Purchaser. Therefore, the Purchaser shall be under the obligation to pay in full the purchase price indicated in the invoice issued for the products actually delivered.

11. Product returns
Under no circumstances may a product be returned to the Seller without the Seller's prior written consent.

12. Intellectual Property
a) For the purpose of intellectual property, the Seller guarantees only that the delivery and use of the Products do not infringe any patent, industrial design, copyright, registered trademark or trade secret of any third party existing in the Territory at the date of the "Products" (the "Intellectual Property Rights"). The Seller shall compensate the Purchaser for any damages suffered as a failure by the Seller to comply with this warranty.
b) The warranty does not apply, and therefore the Purchaser shall not be entitled to any compensation whatsoever, in any of the following cases:
1) for the supply of the Products, the Seller has applied and adhered to specific instructions by the Purchaser which have led to a violation of the Intellectual Property Rights;
2) the violation of the Intellectual Property Rights is caused by the use of the Products in ways, or for purposes and/or in places not previously specified or otherwise indicated in writing to the Seller;
3) the Purchaser has not informed the Seller in writing about the existence of complaints, claims or legal actions (taken or threatened) against the Purchaser during the subsequent thirty days from receipt of such complaints or claims or actions and relating to Intellectual Property Rights;
4) the Purchaser, while compliant with the provisions of paragraph 12.a.3 above, does not allow the Seller to assume - at its own expense - the management of the dispute or to participate in any transactions.
c) The Purchaser guarantees that any indication or specific instruction provided to the Seller and relating to the supply of Products shall not cause a violation, by the Seller, of Third Party Intellectual Property Rights, and agrees to compensate the Seller for all damages that the latter may suffer in the event of such a violation occurring.

13.) Force majeure
Seller shall not be liable for any loss or damage caused by delay in performance or failure to perform its obligations under this Agreement if such loss or damage is due to any cause beyond its control, including but not limited to war, civil unrest, riots, orders or prohibitions imposed by law or public authority, import or export regulations, strikes or labour unrest (affecting its own employees or employees of others) difficulty in finding personnel or materials, machine failures, fires or accidents. Where any such event occurs, Seller may terminate or suspend performance of this Agreement without incurring any liability for any loss or damage arising in connection with such action.

14. Taxation
The Sale Price and any other amount payable to Seller under this Agreement shall be subject to Value Added Tax (any new tax applicable to the sale, production or transportation of the Products other than Seller's income tax) to the full extent of the law and where applicable.

15. Transfer
This Contract may be transferred by the Purchaser only with the prior written consent of the Seller.

16. Applicable law - Jurisdiction
The present Contract is governed for all intents and purposes by Italian law. Any dispute, however related to this Agreement, will be subject to the exclusive jurisdiction of the Law Courts of Perugia.

Al fine del continuo miglioramento della qualità, Vermobil si riserva la facoltà di eliminare e modificare i prodotti in qualsiasi momento senza essere tenuta a darne preavviso.
