Sales terms and conditions

1. Definitions
The Parties conventionally assign the following meanings to the following expressions: “Seller” means VERMOBIL STYLE SRL; “Purchaser” means the purchaser of the Products indicated in the relevant sales invoice; “Products” means the products described in the back of this document; “Territory” means the State in which the products will be delivered by the Seller. “Sales Price” means the price indicated on the invoice.

2. Validity of conditions and annexes
2a) The General Conditions are the only conditions applicable in relation to the sale of the Products and, without prejudice to any mandatory provisions of law, apply to the exclusion of any other condition implicit or explicit.
2b) These General Conditions (together with the “Contract”) represent the entire agreement between the parties in relation to the sale of the relative Products and replace any previous promise, declaration or obligation between them.
2c) The General Conditions may be waived or amended only by written agreement between the Purchaser and the Seller.

3. Orders and conclusion of contract
Each Contract for the sale of Products between the parties shall be effective when the Purchaser receives an order confirmation from the Seller (“Order Confirmation”). Any offer or estimate sent by the Seller to the Purchaser in relation to the Products (in whatever form they are communicated) shall be considered subject to these General Conditions.

4. Price variation
The Seller reserves the right to modify, by simple written communication to the Purchaser at any time prior to the receipt by the Purchaser of the Order Confirmation, the purchase price of the products (the “Purchase Price”) to include in the same any increase in the costs of raw materials, production, packaging, transport or labor. For colours not included in the catalogue, an additional charge will be quoted at the time of the request.

5. Payment, due date
a) Unless otherwise agreed by the Seller, full payment of the Sales Price must be made by the date indicated on the applicable invoice.
b) All payments shall be made under the terms and conditions set out in this Contract. In case of delayed payment of the invoices, the Purchaser shall be charged, without the need for a formal notice of default, default interest at an amount equal to the interest rate of the main financial instrument of the European Central Bank as applied to its most recent refinancing operation, increased by 7 percentage points, pursuant to Italian Legislative Decree 231/2002.
c) Without prejudice to the aforementioned provisions, in the event that the payments are not made in acRopence with the terms provided for in the General Conditions, the Seller shall have the right to suspend the delivery of the Products ordered by the Purchaser, until an agreement is reached on the payment of the amount due by the Purchaser.
d) Moreover, in the event that the payment of the Products is not made by the Purchaser in compliance with the terms provided for in the General Conditions, the Seller shall be entitled to be refunded by the Purchaser for all costs incurred for the recovery of the amounts due, including any bank, legal, extra-judicial or judicial expenses.

6. Transfer of Ownership, Risk
a) Delivery of the Products notwithstanding, the ownership of the Products is retained by the Seller until full payment of the Sale Price by the Purchaser is received, pursuant to Article 1523 of the Italian Civil Code.

b) The Purchaser acknowledges and accepts that, until full payment of the Sale Price has been made, he will possess the Products only on behalf of the Seller, and will keep the Products distinct from other products, in perfect condition and in such a way that they can be readily identified and inspected by the Seller at any time.

c) In the event that the Products are delivered to an address different from that of the Purchaser, the Seller may at any time prior to the sale of the Products and upon notice to the Purchaser, given in reasonable advance, have access to the places where the Products have been delivered, in order to regain possession of the Products of which the Seller is still the owner, in acRopence with the provisions of point a). The Purchaser hereby commits to undertake all that is necessary to allow the Seller to exercise such right.

d) The provisions of this article cannot be interpreted in the sense of giving the Purchaser the right to return the Products or to refuse, postpone or suspend payment of the same, unless otherwise agreed between the parties.

7. Warranty
a) The Seller guarantees that at the time of delivery the Products are free from defects and meet the specifications indicated by the Seller, provided that such products are used by the Purchaser for purposes consistent with those for which such types of products are normally used. In the event that the Seller has not communicated any particular specification in relation to a given product, such product, at the time of delivery, shall be deemed to meet the ordinary quality standards of the relevant market for comparable industrial products. Without prejudice to the provisions of article 8b) and, in the event that a Product does not conform to the above warranty, the Seller shall be entitled, at its sole discretion, to: 1) replace the Products or parts thereof that do not conform; 2) modify the Products to make them conform to the specifications indicated by the Seller or (as the case may be) to market quality standards for comparable products; 3) withdraw the non-conforming Products and refund the relevant sales price in full.

b) The above warranty shall be valid on the condition that:
1) the Purchaser has complied with the provisions of article 10 below, to the extent applicable; 2) the Purchaser has notified the Seller in writing and documented the defects by means of photos on traditional or digital media within 14 (fourteen) days from the delivery of the Products in the case of easily recognizable defects and within 14 (fourteen) days from detection for hidden defects. The Purchaser’s warranty claims become time-barred in any case after 2 (two) years from the delivery of the Products; 3) the Purchaser shall grant the Seller the opportunity to inspect the Products in a reasonable manner; 4) the Purchaser has ceased to use non-conforming products from the moment of discovery of the notified defects.

c) Without prejudice to the provisions of article 8a) above and without prejudice to any mandatory provisions of law:
1) any other guarantee, explicit or implicit, regarding the quality, marketability or suitability of the Products for specific purposes is expressly excluded; 2) the Seller shall not be held liable for any loss or damage suffered by the Purchaser as a result of the defect or non-functioning of the product not covered by this guarantee. d) the Seller shall make every reasonable effort to provide the Purchaser with any instructions, recommendations and advice for the storage, use and conditions of use of the Products. It is understood that it shall be the Purchaser’s responsibility to ensure that the Products are used in acRopence with the relative specifications and intended use of the Products themselves.

8. Quantity
The Purchaser shall notify the Seller in writing, by fax or PEC (Italian legally certified e-mail), of any delivery of a quantity of Products other than the quantity originally ordered by the Purchaser (whether higher or lower), within the mandatory term of 8 (eight) days from the date of receipt of the goods.
a) If the quantity of Products delivered to the Purchaser should be less than the quantity ordered by the same, the Purchaser shall have the right to obtain: 1) the missing quantity compared to the initial order; 2) a reduction in the Selling price;
b) If the quantity of Products delivered to the Purchaser should be greater than the quantity ordered by the same, the Purchaser shall have the right, alternatively, to: 1) return the quantity of Products delivered in excess; 2) retain the entire quantity of Products delivered, paying the entire Sale Price of the same.

c) It is however understood that the possible delivery of a quantity of Products different from the one ordered (whether higher or lower) shall not entitle the Purchaser to refuse the supply and that any return of Products shall, in any case, be previously agreed upon pursuant to article 11 and provided that timely notice has been given pursuant to article 10 letter b) below.

9. Notification of defects or of missing and/or nonconformant delivery

a) The Purchaser shall notify the Seller in writing, by fax or PEC (Italian legally certified e-mail), about any event which is deemed to be covered by the warranty referred to in article 8, no later than the terms referred to in article 8b.2, under penalty of forfeiture.

b) The Purchaser shall also notify the Seller in writing about any delivery of a nonconforming quantity of Products no later than the terms referred to in article 8, under penalty of forfeiture and for the purpose of exercising the rights.

c) After the term referred to in article 10b above has elapsed, the quantity of Products actually delivered to the Purchaser shall be deemed fully accepted by the Purchaser. Therefore, the Purchaser shall be under the obligation to pay in full the purchase price indicated in the invoice issued for the products actually delivered.

10. Product returns

Under no circumstances may a product be returned to the Seller without the Seller's prior written consent.

11. Intellectual Property

a) For the purpose of intellectual property, the Seller guarantees only that the delivery and use of the Products do not infringe any patent, industrial design, copyright, registered trademark or trade secret of any third party existing in the Territory at the date of the "Products" (the "Intellectual Property Rights"). The Seller shall compensate the Purchaser for any damages suffered as a failure by the Seller to comply with this warranty.
b) The warranty does not apply, and therefore the Purchaser shall not be entitled to any compensation whatsoever, in any of the following cases:
1) for the supply of the Products, the Seller has applied and adhered to specific instructions by the Purchaser which have led to a violation of the Intellectual Property Rights;
2) the violation of the Intellectual Property Rights is caused by the use of the Products in ways, or for purposes and/or in places not previously specified or otherwise indicated in writing to the Seller;
3) the Purchaser has not informed the Seller in writing about the existence of complaints, claims or legal actions (taken or threatened) against the Purchaser during the subsequent thirty days from receipt of such complaints or claims or actions and relating to Intellectual Property Rights;
4) the Purchaser, while compliant with the provisions of paragraph 12.a.3 above, does not allow the Seller to assume - at its own expense - the management of the dispute or to participate in any transactions.
c) The Purchaser guarantees that any indication or specific instruction provided to the Seller and relating to the supply of Products shall not cause a violation, by the Seller, of Third Party Intellectual Property Rights, and agrees to compensate the Seller for all damages that the latter may suffer in the event of such a violation occurring.

12.) Force majeure

Seller shall not be liable for any loss or damage caused by delay in performance or failure to perform its obligations under this Agreement if such loss or damage is due to any cause beyond its control, including but not limited to war, civil unrest, riots, orders or prohibitions imposed by law or public authority, import or export regulations, strikes or labour unrest (affecting its own employees or employees of others) difficulty in finding personnel or materials, machine failures, fires or accidents. Where any such event occurs, Seller may terminate or suspend performance of this Agreement without incurring any liability for any loss or damage arising in connection with such action.

13. Taxation

The Sale Price and any other amount payable to Seller under this Agreement shall be subject to Value Added Tax (any new tax applicable to the sale, production or transportation of the Products other than Seller's income tax) to the full extent of the law and where applicable.

14. Transfer

This Contract may be transferred by the Purchaser only with the prior written consent of the Seller.
16. Applicable law - Jurisdiction

15. Applicable law - Jurisdiction

The present Contract is governed for all intents and purposes by Italian law. Any dispute, however related to this Agreement, will be subject to the exclusive jurisdiction of the Law Courts of Perugia.

In its ongoing commitment to quality improvement, Vermobil reserves the right to withdraw or modify any product at any time without prior notice.
Images and colours shown in this price list are reproduced as faithfully as possible to the original products, within the limitations of printing and reproduction techniques. Drawings, finishes and colours of the products illustrated are for illustrative purposes only.
